## BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

*Appeal No. 67 of* 1908-09.

| Appellant | *Vs.* | Respondent |
|---|---|---|
| Bangari, minor by his father and guardian Adivappa | | Basavalingamma, minor by her husband and guardian Basavarajegowda. |

*Subject.*

Appeal against the order of the Deputy Commissioner, Shimoga District, directing that the lands in the khate of one Channabasiah, deceased, of the Thadagadale village, Sagar Taluk, be registered in the name of his only daughter, the respondent.

One Channabasiah was the khatedar of certain survey numbers of the Thadagadale village in the Sagar Taluk. He died on the 22nd of July 1905, leaving only a minor daughter the respondent. An application was made to the Amildar on 2nd October 1905 on behalf of the latter for the transfer of the lands in the khate of the deceased to her name on the ground of her being his only daughter. The minor appellant's father and guardian produced, on 18th April 1907, before the Sub-Division Officer, Sagar, a copy of a will purporting to have been executed by the deceased; urged that he had given his minor son, the appellant, in adoption to the deceased's family in accordance with the terms of the will; and prayed that the khate should be made out in his name as he was entitled to the lands under the will. In the enquiry conducted by the Sub-Division Officer one Mahadevappa, the father-in-law of the minor respondent, was made her guardian. A summons was issued to him but he did not appear; and without taking any further steps the Sub-Division Officer found the will; to be genuine on the strength of a copy of Mahadevappa's statement given before the Sub-Registrar on 26th September 1905; and that the appellant had been given in adoption to the deceased's family in accordance with the terms of that document; and therefore directed that the lands be registered in the name of Bangari, the minor appellant.

Against this decision an appeal was preferred to the Deputy Commissioner by the husband of the minor girl, who urged that his father was not the proper person to represent the interests of his minor wife when he was a fully grown-up person, more especially as his father was not well disposed towards him, and that the will relied upon by the Sub-Division Officer was a forged document.

The Deputy Commissioner observed that when a *prima facie* heir of the deceased is readily available for being registered as khatedar under Section 68 of the Land Revenue Code, a Revenue officer ought not to go into such intricate questions as the genuineness of a will or validity of an adoption. He found that in the present case the will was not proved and no enquiry was held as to the truth of the adoption set up by the appellant's guardian in favour of his son Bangari. Accordingly he directed that the Assistant Commissioner's order be reversed and the lands be registered in the name of the minor respondent Basavalingamma.

Against this order an appeal was preferred to the Revenue Commissioner in Mysore. It was withdrawn under Section 210A of the Land Revenue Code and came for hearing on 10th August 1909, when Mr. D. Venkataramiah, B.A., was heard for the appellant and Mr. N. V. Narasimhaiengar, B.A., B.L., for the respondent.

*Decision.*

The claim of the appellant was founded on a document styled a will. The Sub-Division Assistant Commissioner had no proof before him about the genuineness of the document and assuming it to be genuine, he ordered the khate to be transferred to the name of the minod appellant.

The Deputy Commissioner on appeal rightly declined to accept this conclusion. He might no doubt have ordered an enquiry about the validity of the adoption set up, as that would be necessary to determine whether the daughter or the appellant was the nearest heir to the deceased khatedar. But judging from the various circumstances in the case, Government consider that he acted rightly in accepting the daughter as the heir, and in rendering it necessary for the appellant to resort to a Civil Court.

The appellant contends that as he is in possession, the other party should be directed to establish her claim. But as the possession has not been held for twelve years, it cannot be recognized as conferring a right to the patta; and the registering of the lands in the name of the minor girl would not deprive the appellant of the benefit of any actual possession he may have. This appeal is therefore dismissed.

*Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 5th October 1909.*

READ—

Letter No. 2940, dated 27th June 1909, from the Revenue Commissioner in Mysore, forwarding for favorable consideration, a copy of letter No. 1099, dated 21st June 1909, from the Deputy Commissioner, Mysore District, requesting that an Overseer may be permanently attached to the district to supervise the tank works carried out by the Revenue Department.

No. R. 2921-2—L. R. 23-09-2, DATED BANGALORE, 5TH OCTOBER 1909.

ORDER THEREON.—The Deputy Commissioner states that, as the restoration of all minor tanks irrespective of the outlay incurred in each case, has devolved on the Revenue Department under the recent orders and as the maintenance work to restored tanks has been transferred to the same Department, the Marahamat work to be carried out by the District Revenue Department has considerably increased, so that the Sub-Overseer attached to the district cannot exercise an efficient supervision over the works now in progress in all the 13 taluks, which are estimated to cost nearly Rs. 70,000 while devoting his attention at the same time to the investigation of projects. He therefore requests that the Overseer temporarily attached to the district in connection with tank works undertaken on account of distress, may be permanently kept on in the district in addition to the Sub-Overseer, so that he may properly scrutinize the works now executed under the supervision of the Tank Inspectors and also check the final bills which are now being referred to the Public Works Department Sub-Divisional Officer for scrutiny, thereby subjecting petty contractors to considerable inconvenience arising from delay in payment. The Revenue Commissioner supports the Deputy Commissioner's proposal.

2. Government, however, observe that the restoration of all minor tanks was entrusted to the Deputy Commissioner at his own request, although only works costing less than Rs. 1,000 were being carried out by the Revenue Department formerly, and that the responsibility for the proper maintenance of all restored tanks has not been newly vested in the Revenue Department as supposed by the Deputy Commissioner.

3. They further understand that the services of the officers employed in the Public Works Sub-Divisions are always available for such extra work and that, if necessary, the Executive Engineer can also lend an additional officer to the Deputy Commissioner.

4. With a view, however, to prevent delay in the execution of the heavy Marahamat work now in progress in the district, Government are pleased to sanction the services of an Overseer of the Public Works Department being placed at the disposal of the Deputy Commissioner tentatively for two years. He must be fully employed and satisfactory progress shown in the restoration and repair of minor tanks during the said period.

I. Letters No. 5858, dated the 7th August 1909, and No. 6328, dated the 25th August 1909, from the Chief Engineer of Mysore, requesting early sanction to the grant from the Irrigation Cess Fund for Public Works during the current year, owing to delay in the preparation and submission of the budget estimates under that fund for the same year.

II. Letter No. 2650, dated the 21st August 1909, from the Revenue Commissioner in Mysore, forwarding a copy of his official memorandum reviewing and consolidating the estimates received from the several districts.

*Official Memorandum No. 2641-8, dated Bangalore, 21st—27th August 1909.*

SUBJECT—Correspondence ending with the marginally noted communications from the several Deputy Commissioners and Presidents of District Boards, regarding budget estimates of receipts and expenditure under the Irrigation Cess Fund for the year 1909-10.

No. 972, dated 19th—21st June 1909 (Bangalore).

„ 58, dated 28—29th July 1909 (Kadur).
„ 621, dated 8th April 1909 (Chitaldrug).

The budget estimates of the several District Boards were received on the dates noted below :—

| | | | | |
|---|---|---|---|---|
| Chitaldrug | ... | ... | ... | 10th March 1909. |
| Bangalore | ... | ... | ... | 17th „ „ |

| Kolar | ... | ... | ... | 21st „ „ |
| Kadur | ... | ... | ... | 5th July „ |
| Shimoga | ... | ... | ... | 14th „ „ |

The estimates of the Chitaldrug, Bangalore, Tumkur and Hassan Districts not having been properly prepared, were returned for revision and were received back as noted below:—

| | | | | |
|---|---|---|---|---|
| Chitaldrug | ... | ... | ... | 10th April 1909. |
| Bangalore | ... | ... | ... | 26th June „ |
| Tumkur | ... | ... | ... | 24th July „ |
| Hassan | ... | ... | ... | 28th „ „ |

The Presidents of the Mysore, Kolar, Kadur and Shimoga Districts having omitted to estimate the receipts under the fund, a further requisition had to be made and the Deputy Commissioners of the Kolar, Kadur and Shimoga Districts submitted the particulars on 15th July 1909, 29th July 1909 and 5th August 1909, respectively, while the Deputy Commissioner of the Mysore District has not yet supplied the omissions. There has thus been a long delay in the submission of the estimates, which, however, is due mainly to the fact that this is the first occasion when the District Boards have had to draw up the estimates.

2. The estimates thus received are still incomplete in many respects, but as it is not desirable to delay the matter any further, a rough forecast is made below with the help of the available information.

3. The estimated receipts for the several districts except Mysore are as shown below :—

| | | | | Rs. |
|---|---|---|---|---|
| Bangalore | ... | ... | ... | 27,532 |
| Kolar | ... | ... | ... | 7,277 |
| Tumkur | ... | ... | ... | 36,335 |
| Hassan | ... | ... | ... | 28,996 |
| Shimoga | ... | ... | ... | 42,966 |
| Kadur | ... | ... | ... | 16,689 |
| Chitaldrug | ... | ... | ... | 11,849 |
| | | | Total | ...1,71,644 |

Assuming the probable receipts for the Mysore District to be 37,547 (*vide* margin), the total receipts for the year would amount to Rs. 2,09,191. But the estimates for the Kolar and Chitaldrug Districts do not seem to include the amounts of the cess merged in the Land Revenue demand in the case of taluks settled (or re-settled) after the year 1875. It would have been well if the Deputy Commissioners of these districts and those of Tumkur and Hassan had indicated distinctly the probable receipts to the fund obtained (1) by separate levy of the cess in taluks settled before 1875, from Inamdars, etc., and (2) by transfer from Land Revenue realizations. Under

| Average of the annual demand on account of the separate levy of the cess from Inamdars ... ... ... | 8,883 |
| Total ... | 37,547 |

these circumstances, it is preferable to adopt the estimate suggested by the Comptroller in his letter No. 6757—B. R. 1132, dated 17th May 1909, on the basis of the average for the actual receipts for the recent years, *viz.*, Rs. 2,23,000. This together with the probable balance of the fund Rs. 67,000 (also as estimated by the Comptroller) brings the total probable assets for the year to Rs 2,90,000.

4. The requirements for expenditure, as estimated by the District Boards, under the several heads are as shown below :—

| District | For the annual maintenance repair of river channels (mileage allotments) | For repairs to major tanks and channels | | | Establishment, tools and plant | Total estimate (cols. 2, 5 and 6) |
|---|---|---|---|---|---|---|
| | | Incomplete works of previous year | Fresh works | Total (cols. 3 and 4) | | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| | Rs. | Rs. | Rs. | Rs. | Rs. | Rs. |
| Bangalore ... ... | ..... | ..... | .... | 11,223 | .... | 11,223 |
| Kolar ... ... | ..... | 3,147 | 23,353 | 26,500 | ..... | 26,500 |
| Tumkur ... ... | ..... | ..... | 78,041 | 78,041 | ..... | 78,041 |
| Mysore ... ... | 50,073 | ..... | .. ... | 18,827 | ..... | 77,900 |
| Hassan ... ... | 11,920 | 2,900 | 8,341 | 11,241 | ..... | 23,161 |
| Shimoga ... ... | ..... | ..... | 31,568 | 31,568 | 5,682 | 37,250 |
| Kadur ... ... | ..... | 3,400 | 11,803 | 18,203 | ..... | 18,203 |
| Chitaldrug ... ... | ..... | ..... | 10,150 | 10,150 | ..... | 10,150 |
| Total ... | 70,993 | 9,447 | 1,66,256 | 2,05,753 | 5,682 | 2,82,128 |

In the Bangalore District, the works are not differentiated and the Deputy Commissioners of Tumkur, Mysore, Shimoga and Chitaldrug Districts do not clearly say if there are no incomplete works. Except in the estimate for the Shimoga District, no allowance has been made for the proportionate share of the charges on establishment, tools and plant. And yet the total estimate amounts to Rs. 2,82,588, covering very nearly the assets of the fund. If, as suggested by the Officiating Chief Engineer in para 2 of his letter No. 5858, dated 7th instant, the total grant for expenditure under the fund for the current year should be fixed on the basis of the grant for last year, the amount available for expenditure would be only about Rs. 2,30,000. Setting apart (1) 18 per cent or 41,400 for charges on establishment, tools, etc., (2) Rs. 68,993 as usual for the repair of the river channels in the Hassan and Mysore Districts (*vide* margin), and (3) Rs. 9,447 required for the incomplete works in the Kolar, Hassan and Kadur Districts, the actual amount available for fresh repairs to major tanks and channels would be 1,10,160. The district programmes for this class of works have therefore to be curtailed in some cases (as indicated below) with reference to the average of the actual expenditure during recent years :—

| | Rs. |
|---|---|
| Mysore ... ... | 57,073 |
| Hassan ... ... | 11,920 |

(*a*) *Bangalore District.*—The estimate for this district may be accepted.

(*b*) *Kolar District.*—The allotment applied for, for incomplete works, may be granted. But the estimate for fresh works may be reduced to Rs. 19,853 by omitting items Nos. 4, 14, 18, 19 and 24 to 30, from the list of works submitted by the Deputy Commissioner as these are not stated to be urgent and as estimates for the same are not yet ready.

(*c*) *Tumkur District.*—The estimate for this district is far in excess of the average of the expenditure for the three years ending with 1907-08, *viz.*, Rs. 17,531. The necessity for so many works or the urgency for such a heavy expenditure during the current year has not been explained. As the relative urgency of the various works mentioned in the list has not been indicated, it is not possible, to determine the amount that would be required for meeting the urgent needs of the district. The estimate may therefore be fixed for the present at Rs. 25,000.

(*d*) *Mysore District.*—The estimate for the repair of river channels provides for the 43 river channels (as in last year's Public Works Department budget at the mileage rates) and includes a lump-psum for the Lakshmanpur channel. The amount required for the former is Rs. 57,073 (and not Rs. 57,133 as stated in the Public Works Department budget referred to above). As the necessity for the lump-sum required in respect of the said channel is not clear, the estimate may for the present be restricted to the usual mileage allotment of Rs. 57,073.

A lump-sum of Rs. 15,927 is stated to be required as a 'reserve for minor repairs to major tanks and channels' and at the same time the full amount of the cess assigned to the Mandya Taluk is proposed to be utilized for the repair and restoration of 17 tanks in that taluk. It may not be feasible to comply with these two proposals and the amount required for the repair of tanks in this

*Land Revenue, dated 21st October 1909.*

district may for the present be limited to Rs. 10,000. The attention of the District Board is invited to paras (I and II) of this office Circular No. 11162-9, dated 27th April 1909, where it is distinctly pointed out that the Irrigation Cess Fund is utilized as a rule only for repair and maintenance of irrigation works, and that it will not be practicable to allot exclusively to any taluk or district its own receipts unless there are special reasons for doing so.

(*e*) *Hassan District.*—The estimate for the repair of channels is fixed as usual. The amount required is Rs. 11,920 (and not Rs. 11,860 as stated in the Public Works Department budget estimate for last year).

The programme for the repair of tanks provides for 22 works, at a cost of Rs. 8,341 and includes a lump-sum of Rs. 899 for "works to be anticipated." All the works referred to above do not seem to be urgent. The estimate under this head may therefore be reduced to Rs. 7,000, besides the allotment required for incomplete works, *viz.*, Rs. 2,900.

The Deputy Commissioner has also submitted an estimate amounting to Rs. 4,996 for the repair of minor tanks for which the Irrigation Cess Fund cannot be appropriated.

(*f*) *Shimoga District.*—The programme of the District Board includes 100 works. The average of the actual expenditure for the three years ending with the year 1907-08 is only Rs. 8,337 and the necessity for so heavy an estimate as Rs. 31,568 has not been explained. The allotment to this district may for the present be limited to Rs. 10,000.

(*g*) *Kadur District.*—The allotment required for incomplete works in this district, *viz.*, Rs. 3,400, may be granted. It does not appear that all the 30 fresh works provided for in the District Board's programme are urgently called for; and it is also doubtful if the repair of the two inspection lodges (item 28A and 28B) can be met from the Irrigation Cess Fund. The average of the actual expenditure for the three years ending with 1907-08 is only Rs. 5,798. Under these circumstances, the amount required for fresh works in this district may for the present be limited to Rs. 10,000.

(*h*) *Chitaldrug District.*—The programme for this district may be accepted as all the works mentioned in the list are said to be urgent. The estimate is slightly reduced to Rs. 9,950 as the necessity for the lump-sum required for "other urgent works" in the Chitaldrug District is not apparent.

The balance of Rs. 7,134 may be kept in reserve for supplementing these grants later on if a necessity arises therefor.

As thus revised, the forecast of expenditure for the current year would be as shown below:—

| Probable grant for the year | | Proposed allotments | |
|---|---|---|---|
| | Rs. | | Rs. |
| | 2,30,000 | (*a*) For works including maintenance of river channels in Mysore and Hassan Districts ... | 1,81,466 |
| | | (*b*) For establishment, tools and plant ... ... | 41,400 |
| | | (*c*) Reserve for unforeseen expenditure ... ... | 7,134 |
| Total ... | 2,30,000 | Total ... | 2,30,000 |

The Presidents of the several District Boards are requested to note the observations contained in the preceding paragraphs and avoid a recurrence of the defects in the programmes for the ensuing years. Arrangements should also be made for submitting them in future before the 15th February of each year.

III. Letter No. 3508—2, dated the 15—16th September 1909, from the same officer:—

"In continuation of my letter No. 2650, dated 21st—27th ultimo, regarding the budget estimates under the Irrigation Cess Fund for the current year, I have the honor to forward herewith copy of the Officiating Chief Engineer's Note on the same subject received with his letter No. 6807, dated 11th instant, and to state that I agree to the modifications proposed by him as regards the distribution of the grant among the several District Boards except as regards the inclusion of the amount required for the maintenance of the Daria Bagh branch channel, Seringapatam Taluk, *viz.*, Rs. 38 as under the Government Proceedings cited in the Chief Engineer's Note, the cost in this case is debitable to the Provincial Funds.

2. As the estimates for the current year cannot be delayed any further, I beg to propose that the questions raised in paras 5 (3), 6 and 9-10 of the Chief Engineer's Note may be considered later on as they are not of immediate importance."

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

Note on the Revenue Commissioner's Memorandum No. 2641-8, dated 21st August 1909, reviewing and consolidating the budget estimates under Irrigation Cess Fund for the year 1909-10 :—

It is proposed by the Revenue Commissioner that the aggregate grant under Irrigation Cess Fund for expenditure during 1909-10 may be fixed at Rs. 2,30,000, which was the total grant sanctioned for the previous year (as noted in the margin) Distributed between "Works," "Establishment" and "Tools and Plant"; this grant will stand as follows :—

| | Rs. |
|---|---|
| Original grant sanctioned in budget at the beginning of the year | 2,20,000 |
| Supplemental grant sanctioned at the end of the year ... ... | 10,000 |
| Total ... | 2,30,000 |

| | Rs. |
|---|---|
| Works ... ... ... ... | 1,94,915 |
| Establishment at 17½ per cent on the grant for works | 34,110 |
| Tools and Plant at ½ per cent on the grant for works | 975 |
| Total ... | 2,30,000 |

and not Rs. 1,88,600 for Works and Rs. 41,400 for Establishment and Tools and Plant as calculated by the Revenue Commissioner.

2. The grant for 'Works' may, however, be fixed at Rs. 1,95,000 in even thousands and those for 'Establishment' and 'Tools and Plant' at Rs. 34,125 and Rs. 875 respectively.

3. The amount to be set apart for annual repairs of the river channels in the Mysore and Hassan Districts is Rs. 69,031 (as noted in the margin) including a sum of Rs. 38* required for the maintenance of the three-fourth mile of the Daria Bagh branch channel ordered to be undertaken at Government cost in Government Proceedings No. P. W. 408-11—2598-601, dated 2nd April 1909.

| | Rs. |
|---|---|
| Mysore District ... ... | 57,111 |
| Hassan District ... ... | 11,920 |
| Total ... | 69,031 |

*At Rs 50 per mile, which is the rate fixed for the maintenance of the main channel, viz., Bangardoddi.

The amount available for incomplete and fresh works connected with the repairs of major tanks and channels will therefore be Rs. 1,95,000—69,031 or Rs. 1,25,969.

4. The requirements of incomplete works as per lists received in the Superintending Engineers offices amount to Rs. 50,896 as noted below:—

| | Rs. |
|---|---|
| Bangalore District ... ... ... | 11,063 |
| Kolar ... ... ... ... | 4,006 |
| Tumkur ... ... ... ... | 6,725 |
| Chitaldrug ... ... ... ... | 3,397 |
| Mysore ... ... ... ... | 5,728 |
| Hassan ... ... ... ... | 12,768 (including Rs. 10,000 for Krishnarajakatte) |
| Shimoga ... ... ... ... | 3,795 |
| Kadur ... ... ... ... | 3,414 |
| Total ... | 50,896 |

5. The amount available for fresh works will thus be Rs. 1,25,969—50,896 or Rs. 75,073 against Rs. 1,10,160 proposed by the Revenue Commissioner. Before considering how this amount should be distributed to the several districts, the following points in the detailed district programmes may be noticed :—

(1) Bangalore District—No remarks.

(2) Kolar District—No detailed programme has been received with the papers sent with the Revenue Commissioner's letter.

(3) Tumkur District—From the nomenclature and description of the works entered in the President's programme it appears that items 1, 2, 3, 4, 5, 6, 12, 22, 24, 33, 38, 39, 78, 89, 93, and 94 are original works chargeable to the Provincial Fund and not to the Irrigation Cess Fund, while items 7, 8, 9, 10, 11, 13, 14, 15, 16, 17, and 72 appear to be works to be carried out by the raiyats and not by Government. There are also some items about which it is doubtful as to the source to which they are chargeable. Items 62, 65, and 67 may be either original or repair works, while the cost of items 45 to 61, 75, and 82 to 87 may be chargeable partly to raiyats and partly to Government. These doubtful points cannot be settled till the estimates for the items are received.

(4) Chitaldrug District—The works in the Challakere Taluk appear to be original works, while that (at least a portion of it) in the Molakalmuru Taluk appears to be one to be executed by the raiyats.

(5) Mysore District—Items 8, 9, 11 and 15 (page 2 of programme) appear to be original works.

*Land Revenue, dated 21st October 1909.*

(6) Hassan District—Item 8 should apparently be carried out by raiyats.

(7) Shimoga District—Items 71, 99 and 100 are apparently original works chargeable to Provincial Funds.

(8) Kadur District—If the inspection lodges referred to were constructed for, or used solely in connection with any irrigation work, the cost of their repair can be charged to the Irrigation Cess Fund. A report on this point will be called for from the Executive Engineer.

6. *Reserve for unforeseen expenditure.*—If any provision under this head is called for, it should be made separately for each district or for such districts as may require the same for reasons shown and not in one lump-sum for the entire State, as the latter course would not admit of the total grant for each division and the percentage of establishment charges thereon being worked out and published in the budget (Public Works) as required by the budget procedure. If sufficient information for distributing the lump-sum grant to the several districts is not available, arbitrary distribution can be made in the first instance and necessary transfer of funds from one district to another can be effected in the course of the year according to actual requirements or demands. This will simplify matters.

7. As it is necessary that the grant for fresh works should be reduced from Rs. 1,10,160 to Rs. 75,073, the same may be effected as follows :—

| Districts | Grant as proposed by the Revenue Commissioner | Modified grant as now proposed |
|---|---|---|
| | Rs. | Rs |
| Bangalore ... ... ... ... | 11,223 | 6,937 |
| Kolar ... ... ... ... | 19,853 | 15,994 |
| Tumkur ... ... ... ... | 25,000 | 18,275 |
| Chitaldrug ... ... ... ... | 9,950 | 7,603 |

No. R. 3171-80—L. R. 102-09-6, DATED BANGALORE, 21ST OCTOBER 1909.

ORDER THEREON.—The budget estimates have been submitted in accordance with the directions contained in Government Order No. R. 2086-96—L. R. 595-07-11, dated the 24th September 1908, which were issued with the object of securing a proper distribution of the amount available for expenditure out of the Irrigation Cess Fund annually among all the districts on a careful consideration of their needs as a whole. The data on which the receipts for each district were to be estimated, were also indicated in Government Order No. R. 3842-50—L. R. 161-08-4, dated the 16th December 1908. In spite of these clear instructions, the estimates received from some districts are incomplete in many respects and do not seem to have been framed with any clear conception either as to all the sources of income which should be taken into consideration in estimating the receipts, or the purposes for which expenditure is admissible.

2. Owing to the unreliability of the figures given by the Deputy Commissioners, it is proposed to adopt the Comptroller's figures based on the average of actual receipts of previous years. Under the circumstances, Government are pleased to accept the estimated receipts for the year at Rs. 2,23,000 with a probable opening balance of Rs. 67,000 as suggested by the Comptroller. Government, however,

*Land Revenue, dated 21st October 1909.*

deprecate such merely hypothetical calculations of receipts and desire the Revenue Commissioner to impress upon all Deputy Commissioners their individual responsibility for framing as correct estimates for their districts as possible with reference to the conditions of each year.

3. The Irrigation Cess Fund being intended solely for the proper up-keep of existing irrigation works, original works and works to be carried out by raiyats themselves should have been excluded from the estimates of expenditure. The estimates received from most of the districts are not of much use, as they are not based on any proper programme of works to be undertaken during the year, and no attempt appears to have been made to distinguish between expenditure that is absolutely necessary and that which is merely desirable according to the order of relative importance of the works to which the surplus may be utilised. As the Revenue Commissioner and the Chief Engineer have, however, scrutinised the estimates and modified them according to the probable requirements of each district, Government are pleased to accept their recommendation and sanction a grant of Rs. 2,30,000, which will be distributed among the several districts as shown below. As the Bangardoddi main channel is maintained out of the Irrigation Cess Fund, the small outlay of Rs. 38 required for maintaining a small branch channel to the Daria Bagh will also be met out of the same fund.

4. The question of the forms to be used in framing the estimates may be dealt with separately by the Revenue Commissioner in consultation with the Chief Engineer and suitable forms adopted as finally decided by them.

5. Government trust that the District Boards concerned will be induced to take more interest in having the estimates for the next year prepared on a proper basis and after due consideration, and that the consolidated, budget will be submitted to Government before the end of June 1910.

Districtwar distribution of the grant of Rs. 2,30,000.

READ—

The following letter No. 24, dated the 18th August 1908, from the Superintendent of Revenue Survey and Settlement in Mysore, soliciting instructions on certain points in connection with the evision of the Potgi settlement in taluks into which revised Survey Settlement has been introduced:—

I have the honor to state that in the process of fixing the remuneration payable to village officers n taluks brought under revision settlement, it is found necessary to obtain the instructions of Government regarding certain details in the working of the Potgi Rules, and I accordingly beg to ubmit as follows for the orders of Government.

2. It has not been stated in the Potgi Rules that on the introduction of the revised settlements, there shall be a simultaneous revision of the remuneration payable to the village officers. The absence of any legal provision to this effect does not mean that the Potgi settlement once made hould, for ever, be based upon the data secured after the introduction of the original settlement. On the other hand, the fact that even during the currency of a settlement, the remuneration payable o village officers ought to be revised once after ten years, indicates that the settlement of Potgi ught to be revised in accordance with the realization of revenue by Government, so that the fficers who are primarily entrusted with the collection of revenue may have their proper share of emuneration. After the introduction of a revised settlement, therefore, Potgi should be fixed ccording to the revised data secured at the said settlement. The reason and justice of this neasure are too obvious to require any comments or explanation. I shall therefore proceed at once o the points requiring elucidation and a definite ruling of Government.

3. When remuneration was settled under the Potgi Rules, all surplus cash emoluments were esumed by Government under Rule XXII and therefore we have to deal only with land emoluments t present. It is in the valuation of these land emoluments that a doubt arises as to which assessment, whether original or revised, should be taken as the value of the "Watan" or Service Inam and. Rule I of the Potgi Rules directs that all official land should be valued at the survey assessment inus the jodi, etc., to which it may be subject as recorded in the public accounts of the year. Had here been the words "for the time being" after the words "survey assessment" in the said Rule I, he point would have been quite clear. As it stands the expression "survey assessment" is susceptible of being interpreted as referring to the assessment fixed at the original settlement. But when it s conceded that the potgi should be resettled at the introduction of every revised settlement, the urvey assessment referred to in Rule I cannot but mean anything else than the assessment imposed pon the land for the time being, *i.e.*, the assessment imposed at the revision settlement in consequence of which the potgi has to be revised. This interpretation stands to reason, and is in conormity with the practice obtaining in Bombay. The jodi and other cesses to which the land is ubject and which goes under the name of *mamul jodi*, is, however, a fixed amount, not subject to nhancement or decrease. The land emoluments will, therefore, at the introduction of the revision ettlement, have to be valued at the revised assessment of the same less the mamul jodi.

4. After determining the land emoluments as above the same will, under Rule XVII, be ppropriated to provide the salary of the officiator. If the emoluments are less than the salary fixed ccording to scale; the deficiency will be made good from the Government Treasury under Rule XIX; , on the other hand, there is any surplus, Rule XXI has to be applied. Under this rule, the rplus land emoluments should be subjected to *an additional jodi* known as '*Nime Jodi*' equal one half of the profits of the land, *i.e.*, out of the surplus, one half is recovered as additional jodi nd the other half is allowed to be enjoyed by the holder of the land. Now the "Nime" or additional half jodi that ought to be fixed according to the computation above mentioned will be different different settlements. If, however, it happens to be the same at both settlements, which will very rare indeed, there is no difficulty. If, on the other hand, it happens to be different, as will nerally be the case, then, it may be either more or less than the corresponding former "Nime" half jodi. When it is less, the smaller amount will, under the rules, be imposed as "Nime Jodi," it is necessary to provide for any probable enhancement in the potgi during the currency of the ttlement; but when it is more, how should the matter be dealt with is a question on which ntradictory opinions may be held. It has been decided in Bombay (*vide* page 1984 of the ombay Standing Orders, Vol. III) that the "Nime" or half jodi is not liable to increase on count of the unappropriated land emoluments for the time being, attaining an increased valuation nder a revision of assessment. This ruling, which has been passed after much consideration by e Bombay Government, appears to me to be worthy of being adopted here. This course, while aking ample provision for appropriation in cases of enhanced payment to the officiator at any rture time during the currency of the settlement, also secures an advantage to the holders of e lands, which they deserve in consideration of the peculiar tenure to which the lands are subject.

5. If the Government agree with me in the views expressed in the foregoing paragraphs, I beg at the following definitions and rules which sum up my proposals, may be laid down to explain the plication of the Potgi Rules to the revision of the potgi settlement consequent upon a revised rvey settlement:—

*Definitions*:—

1. Service Inam land emoluments consist of the difference between the original jodi Government charge on the same, which is known as Mamul Jodi, and the full survey valuation or sessment thereof for the time being.

2. The appropriated amount of the Service Inam land emoluments, abovementioned, consists the sum imposed in the form of an addition to the Mamul Jodi to meet, so far as it can, the remuration of the officiator as fixed according to the Potgi Rules or such other orders of Government as y be passed from time to time in this behalf.

*Proceedings of the Government of His Highness the Maharaja of Mysore,*

3. The unappropriated Service Inam land emoluments consist of that portion of the difference if any between the total land emoluments at any time and the amount appropriated at any time for the remuneration of the officiator as mentioned above.

*Rules.* 1.—The Mamul Jodi shall be considered to be the ultimate limit of jodi or Government charge upon the Service Inam lands of village officers exclusive of any charge which it may seem fit to Government to impose for the remuneration of the member or members appointed by Government to officiate, so long as such charge on account of remuneration of service together with the original or Mamul Jodi does not exceed the survey assessment for the time being of the said Service Inam lands.

2. The Service Inam land emoluments are liable for the payment of the officiator up to their whole survey valuation as at any time fixed, and any portion of this valuation in excess of the requirements at any time for the payment of the officiator may be appropriated at any future time if it is in the opinion of Government necessary to increase the sum payable to the officiator.

3. When it is necessary to add to the remuneration of the officiator or officiators all such excess service land emoluments are liable up to the full survey assessment for the time being. The half or "Nimi" Jodi, however, is not liable to increase on account of the unappropriated Service Inam land emoluments for the time being attaining an increased valuation under a revision of assessment; but such jodi may be lowered owing to a decrease in the value of the unappropriated Service Inam land emoluments rendering the jodi formerly fixed thereupon more than half their value for the time being, or as above provided owing to a portion of the excess Service Inam land emoluments being at any future time appropriated for the payment of the officiator.

6. In order to exemplify the working of the above rules, the following two examples A and B are given showing the emoluments of patel and shanbhog as fixed at the original and revised settlements respectively:—

7. In conclusion, I beg to add that early orders may be passed on this subject as the work of revising the Potgi settlements in taluks brought under Revision Survey Settlement cannot be proceeded with in the absence of definite instructions from Government on the points now submitted for consideration and orders.

CAMP NO. R. 17-26—R. M. 40-08-2, DATED CAMP MYSORE, 25TH OCTOBER 1909.

ORDER THEREON.—The Government approve of the proposals made by the Superintendent of Survey and Settlement, which are in accordance with the practice in force in the Bombay Presidency. The result will be that while the survey valuation of pateli and shanbhogi service inams will be revised at each revision settlement along with all unalienated lands, the *nime jodi* heretofore paid will not be increased but retained at the original amount, except where it has to be reduced so as to correspond with half the net profits in those cases in which the revised survey valuation may result in a decrease.

2. Government do not, however, consider it necessary to have any such elaborate rules as are proposed by the Superintendent in the matter, as it is open to him to issue the necessary departmental instructions in giving effect to the above directions. When the Potgi Rules are incorporated with the rules to be issued under the Village Officers' Regulation, necessary alterations to make them conformable with the principles now laid down will be made therein.

READ—

Letter No. 3593, dated the 11th September 1909, from the Revenue Commissioner in Mysore, forwarding copy of his review on the statements of cattle mortality for the quarter ending 30th June 1909.

*Review.*—It will be seen from the accompanying consolidated statement that the total mortality of cattle during the quarter numbered 55,123 as against 44,680 during the corresponding quarter of the previous year. There is a decrease of 4,483 under "deaths from sickness" while the mortality from "accidents and other causes" shows an increase by 15,201. In fact, the mortality under "accidents and other causes," strangely enough, approaches very nearly to that under "sickness," the number of deaths being 25,617 and 27,910 respectively. This creates a doubt whether the patels who register cattle mortality do not wrongly include deaths from epidemic diseases under "deaths from accidents and other causes." The Deputy Commissioners are requested to instruct the Amildars to see that entries are correctly made by the patels and proper check is exercised over them.

2. The Veterinary staff were very active inoculating cattle and adopting other remedial measures. The number of cattle inoculated during the quarter in the several districts is as follows:—

Bangalore, 1,401; Kolar, 1,427; Tumkur, 532; Mysore, 207; Hassan, 562; Shimoga, 499; Kadur, nil; Chitaldrug, 24; Total 4,652.

No. R. 2960-8—AGRI. 64-08-13, DATED BANGALORE, 7TH OCTOBER 1909.

ORDER THEREON.—Recorded.

A proper knowledge of the various causes for the mortality of cattle is as important as information regarding the total loss of cattle and Government trust that more attention will be paid to recording these causes correctly. It is presumed that Jamabandi officers endeavour to check and improve the correctness of these returns.

READ—

Letter No. D. 466, dated the 17th August 1909, and No. D. 492, dated the 23rd August 1909, from the Revenue Commissioner in Mysore, on the subject of utilizing the unspent balances of the funds sanctioned in 1908-09, for the completion of some of the tank works undertaken during the last year.

---

No. R. 2975-85—AGRI. 1-09-8, DATED BANGALORE, 7TH OCTOBER 1909.

ORDER THEREON.—The Revenue Commissioner reports that the unrestored minor tanks and the restored major and minor tanks, the earthwork and the maintenance, respectively, of which had been undertaken out of the advances sanctioned by Government for the purpose, have had to be left in an incomplete condition on account of heavy rains in the months of May and June 1909 and that, unless some of these works are completed, the outlay incurred on them is likely to prove a waste. He therefore requests permission to utilize during the current year the unspent balances of the funds sanctioned last year for these works.

The Revenue Commissioner's proposal is sanctioned with a request that he will be good enough to furnish, at an early date, details regarding the extent of unspent balances referred to by him, the number of tanks, the earthwork or maintenance of which has to be completed during the current year, and the amount required for the purpose both as regards minor tanks never touched by the Public Works Department, and major tanks once restored by that Department and handed over to the Revenue Department for upkeep by raiyats. It should be unnecessary to impress upon local officers the desirability of getting raiyats to do their part of the work themselves in preference to borrowing Government funds and increasing their pecuniary liabilities.

Government Order No. R. 729-39—Agri. 1-09-2, dated the 22nd July 1909, authorising the Revenue Commissioner to utilize, during the current year, the unspent balance of the funds sanctioned during 1908-09, for the purpose of granting takavi advances and loans for the construction of irrigation wells and for other land improvements.

READ—

Letter No. D. 577, dated the 4th September 1909, from the Revenue Commissioner in Mysore, stating that the unspent balance available amounts to Rs. 84,821 and requesting that, in addition to and exclusive of this amount, a sum of Rs. 1,54,000 may be provided for the purpose of granting takavi advances and loans under the Land Improvement Loans Regulation during the current official year, as it is necessary to continue to grant these loans on a large scale, in view of the great stimulus which the demand for these loans has received from the liberal policy adopted during the last year, and the great benefits that are likely to be derived by the agricultural classes from a proper use of these loans.

No. R. 3004-13—Agri. 43-09-2, dated Bangalore, 9th October 1909.

Order thereon.—From the experience of previous years the Government consider it sufficient to provide for the present an allotment of Rs. 1,75,000 inclusive of the amount of unspent balance of last year, for the purpose of the loans referred to above. If it is found in the course of the year that the amount now provided is insufficient, the Revenue Commissioner will be at liberty to apply for an additional allotment.

2. The Revenue Commissioner is requested to distribute the amount among the several districts according to their requirements, and report the distribution for the information of Government.

Letter No. 3801, dated the 14—25th September 1909 from the Revenue Commissioner in Mysore, forwarding the following copy of his review on the statements of cattle mortality for the year ending 30th June 1909 :—

REVIEW.

The statement of cattle mortality submitted by the Deputy Commissioners of Districts for the year ending 30th June 1909.

The accompanying statement shows the extent of cattle mortality in the State during the year 1908-09 as compared with the previous year.

The total number of deaths during the year under review was 1,87,276 as against 1,31,791 in the previous year thus showing an increase of 55,485. There was an increase of 20,852 under "deaths from sickness" and of 35,268 under "deaths from accidents and other causes". As already remarked in the reviews on the statements of cattle mortality for the last two quarters of the year, it is probable that a large number of "deaths from sickness" has been incorrectly classed in the return under "deaths from accidents and other causes." Thus the actual mortality due to sickness should have been even greater than what is indicated by the figures in the statement which are themselves very high. Much havoc was caused during the year by the prevalence of cattle diseases, specially Doddaroga and Chapperoga, in a virulent form in almost all parts of the State. The scarcity of water and fodder during the past season must have also rendered the cattle more readily susceptible to the attacks of such diseases.

*Proceedings of the Government of His Highness the Maharaja of Mysore, Revenue (Agriculture), dated 19th October 1909.*

READ—

1. Government Order No. R. 5969-71—Agri. 78-07-2, dated the 18th March 1908, sanctioning the loan of an oil-engine and the necessary plant belonging to the Public Works Department to Nandi Basappa and H. G. Basappa of the Halehanswadi village, Shimoga Taluk, for irrigation purposes

2. Correspondence ending with the Revenue Commissioner's letter No 3697, dated the 21st September 1909, on the representation of the same landholders that, as the engine installed in their estate in pursuance of the above order failed to work a 4″ or 3″ centrifugal pump, the Public Works Department were trying to set up a 2″ centrifugal pump and as this could not raise sufficient water for their use, an engine capable of driving a 4″ centrifugal pump might be obtained for them from a firm they would indicate.

---

No. R. 3136-7—AGRI. 60-08-12, DATED BANGALORE, 19TH OCTOBER 1909.

ORDER THEREON.—The Chief Engineer, who was consulted in the matter, states that the 2″ centrifugal pump was set up at the request of the petitioners and that as it does not possess sufficient capacity to irrigate all their lands, arrangements may be made through the Revenue Department to supply them with a bigger plant consisting of a 4″ centrifugal pump and a 10-H.P. oil-engine to be had from Messrs. Massey & Co., at a cost of Rs. 3,654. The petitioners are reported to be willing to receive the amount as a loan for land improvement. In consideration of the advantages that are likely to result from these experiments with oil-engines for irrigation, Government are pleased to sanction the grant of a loan of Rs. 3,654 under the Land Improvement Loans Regulation to the petitioners on their furnishing adequate security for repaying it in ten equal annual instalments together with interest. In order that they may be able to procure a proper plant they should be induced to get the engine and the pump through the Public Works Department. The Chief Engineer is requested to arrange for Mr. V. Rangaswami Iyengar, Executive Engineer, Water-Supply and Stores Division, giving the petitioners all necessary assistance by setting up the plant and teaching them how to use it. The petitioners should, of course, not interfere with the plant till it is finally set by the Executive Engineer's establishment and tried satisfactorily for a few days.

2. As considerable cost has already been incurred in conveying the 2″ pump and the engine already in use, the Chief Engineer is requested to ascertain and report what extent of land they are actually capable of irrigating, and whether there would be any benefit in continuing to demonstrate the working in the locality where they are installed or anywhere else in the vicinity of Shimoga.

*Proceedings of the Government of His Highness the Maharaja of Mysore.*

READ—

The following papers on the subject of the disposal of the right of grazing in Government lands:—

(1) *Government Order No. 2360-9-55, dated 16th July 1884.*

1. It has been brought to the notice of the Government of His Highness the Maharaja that the annual sale of the pasturage of unoccupied Government lands is attended with great hardship to the large bulk of the raiyats. At such annual sales, the whole of the available pasturage in a village is not unfrequently bought by some speculator not connected with the village, who sublets the pasturage to the villagers at very exorbitant rents. The extortion and annoyance which result from the present system has for some time past been the subject of frequent complaint from all parts of the Province, and the Government have had under its consideration various proposals for the removal of the evil complained of.

2. It is, of course, necessary that Government should get some return for the extensive pastures at its disposal. The revenue from this source amounted before the late famine to one lakh of rupees; during the famine years it was nearly nil; but since then it has gradually recovered and in 1882-83 stood at 1¼ lakhs. The question now is how to secure this present revenue and to provide for its prospective increase, without reverting to the objectionable system of competitive sales.

3. To the purchaser at the annual sale the owner of cattle now pays a rent calculated at rates varying from 1 to 2 annas per head, and even for so high a rent he is often unable to secure the desired pasturage. Under such circumstances a small Government rate of say ¼ anna per rupee of land revenue or ½ anna per head of cattle will doubtless be received as a great boon by the people, while the Government itself will derive therefrom a revenue somewhat higher than what is now realized by the annual sales. A rate calculated upon the land revenue will possess the great advantage of being readily ascertainable, but it is liable to the objection of being regarded as an additional burden upon the land. On the other hand a rate upon every head of cattle will be appropriate in itself, but its imposition will involve the delegation to village servants of powers which can be abused with comparative impunity.

4. Under such circumstances and pending the adoption, under proper safeguards, of a pasturage rate, if found necessary hereafter, the Government resolve that during the current year no hulbanni sales shall take place, but that, in lieu thereof, every village be given the option of securing the right to pasturage within its limits for a price fixed upon the average realization during the past two years. With this object, the following rules are issued for the information and guidance of all Revenue officers:—

I. The average hulbanni realizations of each village during the years 1882-83 and 1883-84 shall be carefully calculated, and the grazing of all unoccupied Government lands of the village shall be offered for the amount thus ascertained to the inhabitants of the village for the current year.

II. If the villagers accept the grazing on these conditions, the amount to be paid by the whole village shall be apportioned by the various land-holders and other residents of the village among themselves, and a list showing the amount payable by each individual according to such apportionment shall be prepared and signed by all the villagers interested. The list shall also be signed by the patel and shanbhog. It must be distinctly understood that the apportionment of the total amount payable by the village, among individual members thereof, is a matter of private agreement between themselves.

III. The Amildar shall scrutinize such lists and question the villagers as to whether they are satisfied with arrangements therein recorded. Each individual against whom an amount is entered should be thus questioned. If, upon such enquiry, the Amildar is satisfied that the arrangement is one to which all parties interested have given their assent, he shall certify this fact under his hand on the lists in question, which shall thereupon be recorded with the shanbhog. The amount specified in these lists against any individual shall thereupon be entered as the demand against him in his khate and shall be recoverable from him as a revenue demand.

IV. If the inhabitants of any village are unwilling to accept the grazing of the unoccupied Government lands of the village for the amount fixed therefor by para 2, or if they cannot agree among themselves as to the apportionment of this amount, or if, at the Amildar's enquiry, there arise disputes regarding such amount or its apportionment, then the right of grazing in the village concerned shall be sold on the spot as heretofore.

V. In villages the grazing right of which may be given to the villagers by agreement as above, there shall be no restrictions whatever placed upon the grazing of unoccupied Government lands by the cattle of the village.

VI. Instead of disposing of the grazing of each village as above directed, the Amildar may, where found necessary, arrange the villages in convenient groups and dispose of the grazing of each such group separately. Such grouping should be made with strict regard to existing grazing arrangements, and, as far as possible, with the consent of the villages concerned.

5. The Deputy Commissioners and Amildars are requested to give the widest publicity to these rules.

Their effect should be fully explained to each village both before and during the ensuing jamabandi. The further continuance of the system now ordered for the current year, or the adoption of the alternative proposal of a pasturage rate, will depend upon the success with which these rules may be worked. The measure is of great importance to the agricultural population and the Government rely upon the earnest co-operation of all the District Officers for introducing and working it in a way calculated to ensure its popularity.

*(2) Docket No. R. 406—R. M. 537-04-1, dated 21st July 1904, from the Secretary to Government, General and Revenue Departments, to the Revenue Commissioner in Mysore.*

With reference to the marginal representation, has the honor to invite attention to the reply thereto and to request that a report may be obtained from the Deputy Commissioner of Mysore as well as from other Deputy Commissioners and submitted to Government with his opinion before September next, after necessary investigation as therein desired.

Subject No. 173 of the Dasara Representative Assembly Proceedings of 1903.

(a) The present practice of selling the right of grazing in pasture lands is attended with much inconvenience to cattle as one man buys the right of grazing. It is therefore suggested that instead of selling it to one man, a fee be charged on each head of cattle grazed. In Bechirakh villages, the present practice may continue.

(b) The hulbanni sales may be dispensed with, as the sales fetch a very insignificant amount.

*Reply of Government.*

For convenience sake the lease is granted in the name of the head-man who recovers them all rateably. If Kundur of the Heggaddevankote Taluk or any other village is differently treated, the Deputy Commissioner will enquire into the matter. The present practice itself may however require revision and the Revenue Commissioner's attention will be invited to the necessity of doing so.

*(3) Letter No. 7919, dated 20th April 1905, from the Revenue Commissioner in Mysore with its enclosures.*

With reference to correspondence ending with this office No. 2968, dated 28th September—5th October 1904, *re* the existing practice of hulbanni sales (Dasara Subject No. 173 of 1903), I have the honor to forward herewith the replies received from the Deputy Commissioners of Districts except Mysore, as per annexed list (to be kindly returned when done with) and to observe that all these Deputy Commissioners are of opinion that no change is called for in the existing practice of disposing of the right of pasturage under the orders contained in Government Proceedings No. 2360-9-55, dated 16th July 1884, and No. 3348-75, dated 26th August 1884, which is found to work satisfactorily. Under these orders each raiyat's share of the hulbanni should be entered in his khate. But in practice it appears (*vide* Tumkur Deputy Commissioner's letter for example) the entire amount seems to be entered in one man's khate which probably leads to oppression by that man in some places. The Deputy Commissioner of Chitaldrug thinks that the present practice may continue subject however to a slight modification so as to allow of a proportionate deduction being made in the demand when the extent of pasture lands is less than in the previous year owing to some of them having been given out for cultivation. I have a recollection that this question of varying the amount with reference to variations in area of grazing available when the variations are great, was once before raised and decided by Government. But the references are not forthcoming in this office. Such a practice is however reported in the letter of the Deputy Commissioner of Kolar and seems proper.

2. No reply has yet been received from the Deputy Commissioner of Mysore. When received it shall be submitted to Government in continuation of this letter; and the individual case of Kundur village in the Heggaddevankote Taluk which occasioned the representation at the Dasara Representative Assembly shall receive attention.

ENCLOSURE TO 3.

*(a) Letter No. 173, dated 11th October 1904, from the Deputy Commissioner, Shimoga District.*

With reference to your Official Memorandum No. 2969-76, dated 28th September 1904, giving cover to Secretary's docket No. R. 406, dated 21st July 1904, *re* the existing practice

*Revenue Miscellaneous, dated 26th October 1909.*

of hulbanni sales, Dasara Subject No. 173 of 1903, and the opinion of Government thereon, I have the honor to state that in ninety-nine cases out of a hundred, the hulbanni amount is rateably distributed among raiyats and collected from them. It is only when the village community, as a whole, owing to an absence of unanimity among them want the hulbanni to be sold, it is put up to auction. But such cases are rare and serve to bring home to the raiyats the inconvenience caused by want of unanimity among themselves. I therefore consider that no change in the existing practice is necessary.

(*b*) *Letter No. 132, dated 9th October 1904, from the Deputy Commissioner, Kadur District.*

Adverting to your Official Memo No. 2969-76, dated 28th September—5th October 1904, calling for a report on Subject No. 173 of the Proceedings of the Dasara Representative Assembly *re* the suggestion of doing away with the present practice of selling the right of grazing in pasture lands in villages except bechirakh and the reply of Government thereto, I have the honor to report that the present practice of leasing the hulbanni to the villagers and of putting it up to sale when the villagers do not care to take it up may be continued.

---

(*c*) *Letter No. 3250—307, dated 14th December 1904, from the Deputy Commissioner, Kolar District.*

With reference to your Official Memorandum No. 2969-76 of the 5th September 1904, calling for a report on Subject No. 173 of the Dasara Representative Assembly Proceedings of 1903, *re* the existing practice as to the disposal of pasture lands for grazing purposes, I have the honor to state that in accordance with Government Order No. 3348-75, dated 26th August 1884, the right of grazing in unoccupied Government lands is not sold every year, but is given out to the villagers for a rental fixed upon the average realizations of past three or five years and this rate is levied from each villager in the proportion of the number of cattle which he possesses, the whole khate being made in one man's name for the sake of convenience. This arrangement has worked well.

2. Even in bechirakh villages, the above procedure is followed. But in cases where there are no khatedars, the right of grazing is sold.

3. In cases where a large number of Government assessed unoccupied lands are brought under cultivation on darkhasts, a proportionate reduction in hulbanni is allowed at the time of jamabandi, on the representation of the raiyats concerned.

---

(*d*) *Docket No. 194, dated 11th December 1904, from the Deputy Commissioner, Tumkur District.*

In reply to Revenue Commissioner's Official Memorandum No. 2969-76 of the 28th September—5th October last, calling for a report on Subject No. 173 of the Dasara Representative Assembly of 1903, *in re* the existing practice of hulbanni sales, undersigned has the honor to state that the present practice of selling the right of grazing to one man of the village, requires no revision.

---

(*e*) *Letter No. 221, dated 11th January 1905, from the Deputy Commissioner, Chitaldrug District.*

Adverting to your Official Memo No. 2969-76, dated 5th October 1904, calling for a report *re* selling the right of pasture lands, I have the honor to state that the practice in vogue in this district is regulated by Government Proceedings No. 2360-9-55, dated 16th July 1884, and the Amildars report that the above order works satisfactorily in the interest of Government as well as of the villagers.

I therefore beg to submit that the practice may continue subject however to a slight modification so as to allow of a proportionate deduction being made in the demand when the extent of pasture lands is less than in the previous year owing to some of them having been given out for cultivation.

---

(*f*) *Letter No. R. C. 296, dated 6th February 1905, from the Deputy Commissioner, Bangalore District.*

With reference to your Official Memo No. 2969-76, dated 5th October 1904, calling for my opinion on Subject No. 173 of the Dasara Representative Assembly Proceedings of 1903, *re* hulbanni sales, I have the honor to state that the Division Officers, who were consulted on the subject are of opinion that the existing practice has proved very successful

ever since it was brought into operation under Government Order No. 2360-9-55, dated 16th July 1884, and that no change therein is called for. I concur in the above. It will not be out of place to observe here that such sales are allowed to stand in the names of patels as headmen of villages and the amounts are being proportionately distributed among the villagers according to the number of cattle owned by each. In other words this is equivalent to the levy of a small fee on each head of cattle. In Taluk Jamabandis even, a list is prepared showing the heads of cattle owned by each and the amount of hulbanni payable by him therefor. This arrangement has been in existence for upwards of twenty years, as against this no complaints or hardships of any kind whatever were ever brought to light. Revision is needed only in cases in which the practice is otherwise.

2. As regards the abolition of hulbanni sales, I beg to state that the collection under this head for the year 1903-04 in respect of this district is about Rs. 11,000, which in my opinion is not insignificant and the proposal does not commend itself to me.

---

*(g) Letter No. 283—R., dated 11th March 1905, from the Deputy Commissioner, Hassan District.*

Adverting to your O. M. No. 2969-76, dated 5th October 1904, calling for a report on Subject No. 173 of the Dasara Representative Assembly Proceedings of 1903, regarding the practice of selling the right of grazing in pasture lands, etc., I have the honor to state that the Assistant Commissioners and the Amildars who were consulted in the matter, report that since the passing of Government Order conveyed in Government Proceedings No. 2360-9-55, dated 16th July 1884, hulbanni sales have been generally discontinued but that in lieu thereof the grazing is disposed of for a hulbanni rate calculated on the average realizations of the previous two years, the hulbanni lands so disposed of being entered in the name of the village patel who apportions the hulbanni amount among the villagers. This system of showing the amount against the khate of one individual facilitates the writing up of accounts each year as it obviates the necessity of showing decrease and increase against the khates of many individuals. Moreover the absence of complaints from the raiyats goes to show that the standing order of 1884 on the subject has worked satisfactorily.

2. A rate calculated upon the land revenue paid by each raiyat on his respective holding of culturable lands or upon each head of cattle being liable to the objections specified in the above quoted Government Proceedings of 1884, the adoption of a pasturage rate referred to in para 4 of the said proceedings may be open to the same objections.

3. The representation of the member to dispense with the sales altogether on the ground that a very insignificant sum is realized therefrom cannot be supported as the revenue from this source though comparatively small is required (to the extent of 5 per cent of the total hulbanni realizations) for the purpose of expenses connected with the up-keep of the boundary marks of unoccupied Government lands in the village (*vide* Rule 80 of the Land Revenue Rules).

4. In these circumstances, I do not feel justified in recommending the abolition of the present system which has been found to work satisfactorily.

---

*(4) Docket No. 10250, dated 15th June 1905, from the Revenue Commissioner in Mysore, to the Secretary to Government, General and Revenue Departments.*

With reference to his docket No. R. 10822—Mis. 537-04, dated 3rd May 1905, calling for the Mysore Deputy Commissioner's opinion on Subject No. 173 of the Dasara Representative Assembly Proceedings of 1903, has the honor to forward herewith letter No. 790, dated 26th—27th May 1905, from the Deputy Commissioner, Mysore District, stating that no change in the existing practice of disposing of hulbanni is necessary. The Deputy Commissioner has again been asked to report specifically as to the practice now prevailing in Kundur and surrounding villages of the Heggaddevankote Taluk and his report will be submitted to Government in continuation on its receipt.

(Enclosure to 4.)

*Letter No. 790, dated 26th May 1905, from the Deputy Commissioner, Mysore District.*

Adverting to correspondence ending with your docket No. 7920, dated 24th April 1905, calling for my opinion on Dasara Subject No. 173 of 1903, *re* hulbanni sales, I have the honor to state that, under the existing rules, all the unoccupied and kharab lands, excepting gomal, are brought on Village Account Form No. 2. The villagers are entitled to have the hulbanni of their village if they pay the usual amount, which is apportioned among the villagers, each man's share being proportionate to the number and kind of cattle possessed by

*Revenue Miscellaneous, dated 26th October 1909.*

him. The hulbanni amount of a year is determined by taking the average of the two previous years, and for convenience sake, it is, in the majority of the cases, entered in the name of the village patel.

2. Mr. A. Subramanya Iyer, Assistant Commissioner of the Krishnarajpete Division, states that the list showing each man's quota is signed by the Amildar at the time of the Taluk Jamabandi; and the Assistant Commissioner of the French Rocks Division (Mr. K. Srinivasa Rao) reports that this list is filed along with the hulbanni statement.

3. It is brought to notice that, in only in such villages in which the raiyats disagree to the average distribution, or to pay the *mamool* amount, that the hulbanni thereof is sold by public auction. The Assistant Commissioner of the Krishnarajpete Division reports that the villagers are allowed a deduction in the hulbanni amount when unoccupied lands are taken up for cultivation.

4. The Amildar of the Malvalli Taluk (Mr. Kesar Singh) reports that the charge per head of cattle in his taluk comes to 1 to 3 pies per annum and 1 pie for five heads of sheep or goats, and that the villagers esteem the present practice as a great boon to them, adding that the right of pasture in "Bechirakh" villages is disposed of by sale owing to the competition of adjacent villagers.

5. All the Assistant Commissioners of this district, except the Assistant Commissioner of the Nanjangud Division, who has not yet submitted his report, hold that there is no need for any change in the present system of disposing of hulbanni, and for the foregoing facts I agree with them, as I believe this practice is general in other districts.

*(5) Letter No. 1549, dated 10th August 1905, from the Revenue Commissioner in Mysore, to the Secretary to Government, General and Revenue Departments.*

In continuation of this office letter No. 10250, dated 17th June 1905, forwarding letter No. 790, dated 27th May 1905, from the Deputy Commissioner, Mysore District, on the existing practice of disposing of hulbanni and with reference to your docket No. R. 1516—Mis. 537-04-5, dated 3rd August 1905, I have the honor to submit herewith, in original, letter No. 114, dated 27th July 1905, from the Deputy Commissioner, Mysore District, forwarding a report on the existing practice of disposing of hulbanni in Kundur and surrounding villages of the Heggaddevankote Taluk. It will appear therefrom that there is nothing exceptional in the practice in vogue in this village.

(Enclosure to 5.)

*Letter No. 114, dated 27th July 1905, from the Deputy Commissioner, Mysore District, to the Revenue Commissioner in Mysore.*

Referring to your docket No. 1025, dated 15th—19th June 1904, calling for the submission of a report about the existing practice in Kundur and surrounding villages, *re* the disposal of hulbanni, Dasara Subject No. 173 of 1903, I have the honor to submit herewith (in original) Heggaddevankote Taluk Amildar's report No. 14, dated 10th July 1905, together with its three enclosures received in this office on the 23rd instant through the Assistant Commissioner, Hunsur Division, and to state that the existing practice *re* the disposal of hulbanni at Kundur in the said taluk is reported to be as elsewhere in the taluk, *viz.*, to give out the hulbanni for the same amount to the patel, shanbhog, or other important person in the village, and that Lakshmi Naranappa, the Dasara member referred to, had no real grievance.

*(6) Docket No. R. 6464—R. M. 537-04-5, dated 28th November 1905, from the Secretary to Government, General and Revenue Departments, to the Revenue Commissioner in Mysore.*

Correspondence ending with his letter No. 1549, dated 10th August 1905, reporting on the existing practice of hulbanni sales.

With reference to the above, has the honor to forward herewith a statement of hulbanni realizations from the year 1884-85 to 1903-04, from which it will be seen that the realizations have come down from Rs. 1,41,058 in 1889-90 to Rs. 97,528 in 1903-04. The Revenue Commissioner is therefore requested to ascertain from the Deputy Commissioners of Districts the cause of such variations, and after considering the whole situation, favor Government with his further opinion thereon.

(7) *Letter No. 80, dated 9th December 1905, from the Survey Commissioner in Mysore, to the Secretary to Government, General and Revenue Departments.*

As requsted in your memo No. R. 6465—R. M. 537-04-6, dated 28th November 1905, I have the honor to offer the following opinion upon Subject No. 173 of the R. A. Proceedings of 1903, relating to hulbanni sales.

2. There is, no doubt, considerable variety of procedure in disposing of pasturage rights. Sometimes, as the Representatives have stated, one man buys the right and is no doubt in a position to make the most of what he has purchased; sometimes the tentative rules of 16th July 1884 are sought to be carried out and the grazing given by agreement; and sometimes one man represents the villagers and buys the grazing of the village, treating his co-raiyats on the whole very fairly. I think it is very advisable to have one uniform system.

3. The Representatives suggest a fee being charged on each head of cattle grazed, or, what no doubt they consider still better, the dispensing entirely with hulbanni sales. The annual hulbanni realizations for the whole Province are under a lakh of rupees; in 1902-03 they came to Rs. 97,000 and in 1903-04 to Rs. 96,000. Horned cattle in the Province are from four to five million, let us say four million. A head tax of one anna per head would give 2½ lakhs of rupees. The Representatives would find their suggestions, if rigidly given effect to, very disadvantageous to themselves, and I think, moreover, that a head tax would be quite unworkable, simple as the plan seems; it would be quite a new tax on many raiyats who at present have all the grazing they require in the free allotments and in their own fields. As regards dispensing entirely with hulbanni sales, that is a question for Government to decide but even this apparently liberal measure would have its drawbacks. In the long run it might not, from a revenue point of view, and compared with the present inadequate returns from the sale of pasturage, be disadvantageous to Government, for many raiyats would, in the *maidan* taluks, take up survey numbers at the *akarband* rates, solely for grazing, rather than suffer in the general scramble.

4. I think on the whole, that the system of selling the right of grazing by auction, as laid down in Land Revenue Rule 21, is the fairest. The Representatives of course make the most of the inconvenience which a purchaser may cause, but they forget to mention, or admit, that the assignment of free grazing has been very liberal indeed and that the auction sales can apply only to what remains, after the reasonable wants of the villagers have been as far as possible satisfied.

5. Land Revenue Rule 21 should, in my opinion, be made imperative, in the absence of any special ruling by Government under Land Revenue Rule 22. The rules of 1884 should be cancelled.

6. The realizations from the sale of grazing will, I feel sure, improve if the above suggestion be carried out, and no option left to the revenue authorities to adopt any but the one prescribed course of procedure. The bulk of the raiyats are not in the least gainers under the present uncertain mode of procedure, the advantage falling entirely to the few.

(8) *Docket No. R. 5985—R. M. 537-04-8, dated 14th December 1906, to the Revenue Commissioner in Mysore.*

In continuation of this office No. R. 6464, dated the 28th November 1905, has the honor to forward herewith the accompanying copy of R. A. Subject No. 71 of 1906, and the reply of Government thereto and to request that the report already called for may be submitted at a nearly date.

*Revenue Miscellaneous, dated 26th October 1909.*

Subject No. 71.

Abolition of the hulbanni tax.

Messrs. (1) Maganahalli Sangappa, Devangere; Inamdar Madappa, Mysore Taluk; Chandrasekharaiya and Gundappa, Nagamangala Taluk; (1 & 2) K. Shamiengar, Channagiri Taluk.

*Summary of discussion.*—(1) The livelihood of raiyats and the revenue of Government depend upon the well-being of the cattle. The remission of the *hulbanni* tax is quite desirable. The loss accruing thereby will be trifling and will be more than compensated by the benefits derived by the raiyats.

(2) Formerly a fixed amount of *hulbanni* used to be debited to the name of the patel who in his turn would distribute the amount among the raiyats of the village. The best portion of the pasture land used to be allotted for the grazing of plough cattle, the second sort of pasture land for cows, etc., and the land on which inferior kinds of grass grow, for the use of sheep and goats. Now the amount of *hulbanni* is fixed with regard to the circumstances of each village and is distributed among the villagers proportionately to the number of cattle each of them owns. Equal rights are conferred upon each raiyat to graze any of his cattle in any pasture land. Thus sheep and goats are allowed to graze in the best sort of pasture land to the prejudice of the plough cattle, and it is a well-known fact that wherever the former graze there remain no traces of grass. It is therefore requested that orders may kindly be passed restoring the old practice.

Mr. Madappa also added that raiyats whose cattle graze in assessed unoccupied land are also made to repair the *bandhs* in addition to the payment of *hulbanni*.

*Reply of Government.*—The present system of apportioning the *hulbanni* among the villagers according to the number of cattle each owns has resulted in a considerable diminution of the *hulbanni* amount, the realizations having fallen from Rs. 1,41,058 before the introduction of the scheme to Rs. 97,528 in 1903-04. The repair of *bandhs* in assessed unoccupied lands is effected at Government cost. If in any place the raiyats are made to do it, the matter may be represented to the Revenue Commissioner.

*(9) Letter No. 1986, dated 7th August 1909, from the Revenue Commissioner in Mysore.*

With reference to correspondence ending with your letter No. 8077—R. M. 537-04, dated 6th April 1909, requesting me to furnish Government with my opinion as regards the cause for the fall in hulbanni realizations from 1889-90 to 1903-04, I have the honor to state as follows:—

1. As required in your office docket No. R. 6464—R. M. 537-04, dated 28th November 1905, the Deputy Commissioners were requested in this office letter No. 5424-31, dated 7th December 1905, to submit statements of hulbanni realizations for their respective districts for the said period together with an explanation for the cause of decrease under the hulbanni revenue, and the marginally noted reports were received. The report and the statement received from the Deputy Commissioner, Shimoga District, is interesting and instructive. He ascribes the fall in the hulbanni revenue to expansion of cultivation, reservation for date groves and addition to State Forest out of the area for which hulbanni was paid. But as the reports received from the other Deputy Commissioners were very meagre and did not afford sufficient material for a full and precise consideration of the subject, all the Deputy Commissioners were in this office memo No. C. 115-22, dated 11th October 1907, required to submit statements showing particulars of occupied and hulbanni lands, and lands taken up for forest and date groves reservation and also of hulbanni collections for each taluk and one consolidated statement for each district, and the marginally noted statements have been received.

2. The reply to the reference from Government had to be deferred on account of the statements from the Tumkur District not having been received, but as pressing reminders are being received from Government, I however think that even without the information for the Tumkur District, it is possible with the material now available, to consider the question as a whole and to satisfactorily account for the cause in the fall of hulbanni revenue during the period in question.

* As the figures for some of the taluks in the Kolar District for 1889-90 are not available, the figures for the year next for which they are available are included.

From the above figures it will be seen that the fall in the hulbanni collections has generally resulted from the reduction of the extent of hulbanni lands during the period. It is interesting to note that in the districts of Bangalore, Shimoga and Chitaldrug the percentage in the decrease of collection closely corresponds to the percentage in the decrease of hulbanni extent. The figures for the Hassan District show that the proportionate decrease in collections is much less than that in the hulbanni area, while in the districts of Kolar and Mysore, the fall in realization is greater than the proportionate decrease in extent. In this connection I may state that as the shrinkage in the hulbanni extent is due to expansion of cultivation, the lands taken up for cultivation and as such excluded from the hulbanni area are likely in many cases to have been the better sort of lands. This circumstance may be taken to account for the higher rate of decrease in the collections. Further in many places, owing to the indolence or disinclination of the taluk officials, the amount of hulbanni is not revised with due regard to the fluctuations in the extent under hulbanni which may account for the comparatively smaller reduction in the realizations. Again, comparing the area under hulbanni and the realization therefrom in the different districts, it will be observed that there is great disparity in the incidence of the tax, which is probably due to the difference in the imposts as originally fixed and also perhaps in a minor degree to the comparative paucity of grazing lands and consequent demand for such grazing.

4. It is not necessary to take into account the fluctuations in the hulbanni collections and extent during the intermediate years as these do not alter the general aspect of the question. These fluctuations are more or less due to remissions, revised settlements, forest reservations and to demands for previous years being collected in the succeeding year.

The reports and statements received from districts noted in margin of para 1 are herewith submitted in original.

*(10) Letter No. 2303, dated the 16th August 1909, from the Revenue Commissioner in Mysore.*

In continuation of my letter No. 1986, dated 7—11th August 1909, furnishing my opinion as regards the cause of the fall in hulbanni realizations from 1889-90 to 1903-04, I have the honor to forward herewith, in original, letter No. 1341-84, dated 5—6th August 1909, from the Deputy Commissioner, Kolar District, submitting a statement showing the particulars of occupied and hulbanni lands taken up for forest and date groves reservation for the whole district.

*(11) Letter No. 2775, dated 26th August 1909, from the Revenue Commissioner in Mysore.*

In continuation of my letter No. 1986, dated 7—11th August 1909, and letter No. 2303, dated 16—18th August 1909, furnishing my opinion as regards the cause of the fall in the hulbanni realizations from 1889-90 to 1903-04, I have the honor to forward herewith in original letter No. 161, dated 20th August 1909, from the Deputy Commissioner, Tumkur District, submitting a statement showing the particulars of occupied and hulbanni lands, and lands taken up for forest and date groves reservation for the district.

*Revenue Miscellaneous, dated 26th October 1909.*

2. The following statement compares the extent of hulbanni lands and realizations therefrom of 1889-90 and 1903-04 and the percentages of decrease in both in the latter year :—

| Year | Hulbanni collections | Percentage of decrease in 1903-04 as compared with 1889-90 | Hulbanni extent | Percentage of decrease in 1903-04 as compared with 1889-90 | Revenue realised per 100 acres |
|---|---|---|---|---|---|
| | Rs. | | Acres | | Rs. |
| 1889-90 | 31,509 | 31·6 | 6,77,878 | 33·8 | 4·6 |
| 1903-04 | 21,569 | | 4,48,605 | | 4·8 |

From the above figures it will be seen that the percentage in the decrease of collection closely corresponds to the percentage in the decrease of hulbanni extent.

---

No. R. 3248-57—R. M. 537-04-12, DATED 26TH OCTOBER 1909.

ORDER THEREON.—Government observe that the decrease in the realizations from hulbanni has been satisfactorily accounted for, being due simply to the natural expansion of cultivation and the reservation of lands for purposes of Excise and Forest revenue, which have greatly reduced the extent of land that should otherwise have been available for grazing. The consensus of opinion is in favour of the continuance of the existing arrangement as to the disposal of grazing in Government lands. The correspondence will therefore be recorded with the remark that no change in the existing system is, in the opinion of Government, called for.

No. Fl. 1894-934—Ml. 478-06, dated Bangalore, 9th October 1909.

ORDER THEREON.—To enable Government servants to construct houses in the Extensions in Bangalore, Government consider it desirable to revert to the system of making advances not exceeding a year's pay in each case, on the security of the applicant's site and the building to be erected thereon. Sufficient collateral security (in the shape of other property or solvent personal security) will also be taken in each case, in order to protect Government from loss in the case of the death or bankruptcy of the applicant after receiving the advance. Such collateral security will be required only in cases in which the advance amounts to more than six months' pay and the period of repayment is more than two years. The advance should be repayable without interest in four years, the recoveries being made by monthly deductions from the salary bills of the Government servant concerned. An instalment of six months' pay may be given first, and the second instalment given after the Deputy Commissioner is satisfied that the whole of the first instalment has been properly utilized.

Letter No. 2216, dated the 28th September 1909, from the Comptroller, Public Works and Railway Branch, submitting for the orders of Government the question of the treatment of enforced absence of officers owing to plague detention and similar causes.

---

No. FL. 2010-50—S. & A. 208-07-2, DATED BANGALORE, 14TH OCTOBER 1909.

ORDER THEREON.—After a careful consideration of the question, the Government are pleased to direct that enforced absences from duty, as for instance, on account of detentions in plague camps, or of orders not to attend office in consequence of infection in the family or household, be treated as casual leave, but the limit of five days at a time imposed by Article 161 need not be applied in such cases. If, however, an officer has exhausted the maximum amount of casual leave permissible to him in the year, his absence may be treated as privilege leave, or, if he be not entitled to such leave, as any other kind of leave to which he may be entitled at the time.

The following additions to Articles 161 and 162 and revision of Article 163 of the Mysore Service Regulations are accordingly sanctioned:—

(i) Add the following as 'Exception' under Article 161:—

The limitation of five days at a time is not applicable in cases of enforced absences from duty, as for instance, on account of detentions in plague camps or of orders not to attend office in consequence of infection in the family or household of officers, when such absences are treated as casual leave, as provided for in the explanation under Article 163.

(ii) Insert the following under Article 162:—

*Vide* 'Exception' under Article 161, the ruling contained in which applies to the officers mentioned in this article.

(iii) Revise 'Explanation' under Article 163 as below:—

*Explanation.*—This article is not to be read as precluding the treatment as casual leave, under Article 161, of absence from duty following on leave granted under the rules, so long as such absence is due to reasons involving no evasion of the rule in regard to the matters above specified, as for instance, when it is necessitated by detention in plague camps on the way to rejoin or by orders not to attend office in consequence of the presence of infectious disease in the family or household of the person concerned.

Absences from duty for reasons of the nature indicated above should be treated as follows:—

(*a*) In the case of a person who has not taken any leave—as casual leave or privilege leave at his option; if he has neither of these kinds of leave to his credit, as any other kind of leave admissible.

(*b*) In the case of a person who has already taken leave—as casual leave or leave of the same kind on which he already is, if such leave is available, at his option; if he has no leave at his credit, as leave without allowances.

Letter No. 7326, dated the 11th June 1909, from the Comptroller to the Government of His Highness the Maharaja of Mysore:—

"I have the honor to state that from the wording of Article 586 (*b*) of the Mysore Service Regulations, regulating the daily allowance of officers not mentioned in Appendix 2, it would appear that a distinction is made between a menial and a non-menial inferior servant for purposes of daily allowance. While in both cases, the daily allowance is stated to be 3—10ths of their pay, this is made subject to a minimum limit of $1\frac{1}{2}$ or 2 annas according as their pay does not or does exceed Rs. 8 only in the case of the menial inferior servants and not in the case of the non-menial inferior servants. This distinction leads to the anomaly of a menial inferior servant becoming entitled to a higher rate of daily allowance than a non-menial inferior servant drawing the same pay. But from the very nature of the case, it should not be so. And I am very doubtful if the insertion of the word leading to this distinction or rather anomaly was intentional, as it is not to be found in the Civil Service Regulations of British India, on which our rules are mainly based. The practice of this office also has been to apply the rule in its spirit rather than in the letter. It is therefore desirable to formally authorise the practice in vogue and to so clearly word the rule as to convey its true spirit. I therefore request that you will be good enough to obtain the orders of Government for substituting the words 'Inferior servants' for the words 'Menial servants' and 'Menials' occurring in lines 1 and 4, respectively, of Article 586 (*b*) of the Mysore Service Regulations."

No. Fl. 2130—S. & A. 166-08-2, DATED BANGALORE, 23RD OCTOBER 1909.

ORDER THEREON.—Government are of opinion that the minimum rates mentioned in clause (*b*) of Article 586 should be made applicable to both the classes of officers enumerated therein. They are accordingly pleased to direct that the words "in the case of menials" occurring in lines 3 and 4 of Article 586, clause (*b*), of the Mysore Service Regulations, be omitted.

Letter No. 42, dated the 3rd August 1909, from the District Magistrate, Chitaldrug, forwarding a copy of his judgment in Criminal Appeal Case No. 35 of 1908-09, and the measures referred to therein:—

(*Enclosure.*)

IN THE COURT OF THE DISTRICT MAGISTRATE, CHITALDRUG DISTRICT.

*Dated 10th May 1909.*

Present—M. Chengiah Chetty, Esq., B.A., District Magistrate.

Petition of Criminal Appeal in Criminal Case No. 35—08-09, against the conviction and sentence given by the Amildar and 2nd Class Magistrate, Challakere, in Criminal Case No. 53 of 1908-09, (Appellant Salabanna of Doddasiddavvanahalli, Chitaldrug Taluk, by Mr. C. Channakesavaiya, B.A., Advocate,)

*Judgment.*

1. The appellant was charged for fraudulently using a false measure in the Challakere market, an offence punishable under Section 265, Indian Penal Code. The Magistrate found him guilty of the said offence and sentenced him to pay a fine of Rs. 50 or in default to suffer rigorous imprisonment for a fortnight.

2. The grounds of appeal presented on the 15th April 1909, are as follows:—

(1) That the appellant has in good faith used the Government seer, Article No. 1, and the prosecution has not established beyond doubt that he acted fraudulently.

(2) That from the evidence of the prosecution, it is quite clear that the several Government seers used in one market do not exactly tally with one another.

(3) That under such circumstances it is not just to punish a person who happens to innocently use any one of them.

(4) That the quantity by which the Article No. 1 is said to have been less is very small, and the difference might be probably due to the ingenuity in measuring.

(5) That this case clearly falls under Section 79, Indian Penal Code, as the appellant has used Article No. 1 under *bonâ fide* belief that it is a true Government seer and under Section 95, Indian Penal Code, as the deficiency in Article No. 1 is very small.

(6) That the Lower Court has erred in the appreciation of evidence,

(7) That the punishment is very severe. And

(8) That the judgment of the Lower Court is against law, weight of evidence and the probabilities of the case.

3. In this case the accused was convicted for using false measure under Section 265, Indian Penal Code, and sentenced to pay Rs. 50 fine.

4. In the sante at Challakere, the accused was selling navane in a seer which bears the stamp 'Government of Mysore, 1 seer, 1898.' The Police seized this seer and produced it before the Magistrate with a charge sheet stating that this seer was less than the seer kept in the Police Office by $\frac{1}{5}$th of a pavu. This seer bears the stamp 'Government of Mysore, 1 seer, 1893.' The Magistrate sent for other seers stamped Government of Mysore, 1895 and 1896.

5. Thus the Court examined the seers of 1893, 1895, 1896 and 1898 and found them to disagree. The Magistrate says in his judgment that unfortunately there is a slight disagreement between some of the measures produced before the Court although all of them are stamped Government of Mysore, but as the measure produced by the accused measures less than all of them, he suspects that the accused has tampered with the genuine measure by reducing the dimensions. He further states that there are some marks on the seer which make him think that the dimensions have been cut short. But I am unable to find any such marks to indicate that it has been tampered with. One Venkappa admits that this seer was sold by him to the accused's father two or three months previously.

6. From the above facts, it will be seen that the accused has not used this seer with any fraudulent intention. He purchased a seer bearing the stamp of Mysore and used it in the sante. If it is found to be less when compared with other seers which are supposed to be standard seers, which themselves do not agree, I do not understand why the Court should presume that the accused tampered with this measure. He may have come by it in all innocence. The mistake may have taken place when this measure was manufactured.

*Judicial and Legislative (Legislation), dated 1st October 1909.*

7. I therefore admit the appeal petition and set aside the finding and sentence of the Lower Court and direct that the fine be refunded, if already paid.

*Note.*—The measures of 1893, 1895, 1896 and 1898 will be forwarded to Government pointing out the differences, for such action as they deem necessary."

Papers ending with letter No. 2965, dated the 11th August 1909, from the Secretary to the Government of India, Home Department, to the Chief Secretary to the Government of the Punjab.

No. 2965.

FROM

SIR HAROLD STUART, K.C.V.O., C.S.I.,

*Secretary to the Government of India.*

To

THE CHIEF SECRETARY TO THE GOVERNMENT OF THE PUNJAB.

Home Department
(Public)

*Simla, the 11th August 1909.*

SIR,

I am directed to refer to your letter No. 422, dated the 11th June 1909, regarding the responsibility of licensed dealers in arms and ammunition in the matter of satisfying themselves that their customers are legally authorized to possess them.

2. The Government of India concur in the view expressed in paragraph 3 of your letter that dealers are bound, under the law, to ascertain that the persons to whom they sell arms are legally authorized to possess the same. I am to request that, with the permission of His Honor the Lieutenant-Governor, Messrs. Walter Locke & Co. may be informed accordingly.

3. While desiring to enforce the responsibility of arms-vendors, the Government of India are unwilling to impose on them the obligation suggested in paragraph 6 of your letter to the effect that they should supply immediate information to the Superintendent of Police of the despatch by rail or post of arms and ammunition to any address or send them to purchasers through district officials. I am, however, to invite attention to the fact that under the conditions attached to their licenses all dealers in arms and ammunition are required to keep registers of their stock in trade and of all transactions relating to it, and that their stock and registers are liable to inspection by the police. I am therefore to suggest that the police should be required to exercise a more vigilant supervision over these registers and if they find that arms and ammunition have been supplied to persons whose exemption seems to be doubtful, they should take steps to ascertain whether such persons are really exempted from the provisions of the Indian Arms Act, and if not, to report the matter to the local Government.

If it should be found that instances of arms being supplied to persons not entitled to possess them are at all frequent, the Government of India would be willing to reconsider the proposal to frame a rule of the description recommended by His Honour.

I have the honor to be,

Sir,

Your most obedient Servant,

H. A. STUART,

*Secretary to the Government of India.*

No. 422-S.-Home, dated Simla, the 11th June 1909.

From—The HON'BLE MR. M. W. FENTON, I.C.S., Officiating Chief Secretary to the Government of the Punjab.

To—The Secretary to the Government of India, Home Department.

I am directed by the Lieutenant-Governor to submit for the consideration of the Government of India copy of a letter No. 1712, dated the 3rd of May 1909, from the Commissioner of Jullundur bringing to notice an evasion of the provisions of the Arms Act, which, in His Honour's opinion, is of no small importance.

2. It will be noticed that Messrs. Walter Locke and Company consider that they are entitled to sell arms and ammunition to any well-dressed respectable looking person who may represent himself to be an Honorary Magistrate. Apparently also it is considered legitimate by this firm to despatch a consignment of arms to the address of any person, who may come within the categories exempted from the provisions of the Act, without ascertaining that the addressee is really the person whom he represents himself to be. The Commissioner of Jullundur, it will be seen, apparently accepts this view of the law.

3. The Lieutenant-Governor, however, cannot admit that the law is so defective. It seems to him that the provisions of Section 22 of the Arms Act, are applicable to such cases, and that dealers

are bound to ascertain that the persons to whom they sell arms are legally authorized to possess the same. The opinion of the Legal Remembrancer was taken on this point. His view is:—

> "To accept a mere assurance or to judge by mere appearances is certainly not what a Magistrate would consider a *bonâ fide* discharge of the licensee's obligation. Walter Locke will be responsible if they merely rely on such enquiries to satisfy themselves of the legal authority of any intending purchaser, and I think they ought to be warned to that effect. They are, similarly, not properly discharging their obligations if they send by post arms to any person who professes himself entitled to possess them. They must make due enquiry in all cases of sales, and must in all cases where they have not already sufficient proof that the purchaser is legally entitled to purchase, obtain sufficient proof by further enquiry."

4. Sir Louis Dane is of opinion that the subject is of sufficient importance to bring to the notice of the Government of India. It is possible that Walter Locke and Company are not the only firm that is selling arms and ammunition to all sorts of persons indiscriminately. In the last ten years the annual customs receipts from arms and ammunition have gone up 80 per cent and though this may be legitimate trade up to the time the weapons reach the licensed dealers, there seems to be reason for some misgivings as to the way in which these latter dispose of their wares.

5. His Honour has heard that it is the experience of those who advertise fire-arms for sale in the newspapers that their advertisements invariably meet with an immediate response. It is quite possible that private persons disposing of their arms in this way are not sufficiently careful about ascertaining whether the purchasers are entitled to keep arms. However, that is a branch of the subject which, it is understood, is engaging the attention of the Criminal Investigation Department. The present letter is concerned only with the question raised by the letter of the Commissioner of Jullundur and its enclosures, *viz.*, whether steps should not be taken to ensure that all licensed vendors of arms throughout India should be warned of their responsibilities in the matter of ascertaining whether purchasers are persons to whom arms may legally be sold. Perhaps the Government of India may deem it desirable to issue a general warning to this effect and to direct the prosecution of any licensed vendor who neglects the warning.

6. His Honour would also suggest the issue of a rule requiring licensed vendors to supply immediate information by post to the Superintendent of Police of the district of the addressee in the case of all arms and ammunition despatched by rail or post to any address. To give this information through the local Commissioner of Police results in delay, the consignment reaching the address before the police of the consignee's district are aware of it. Another plan might be to require the dealer to send all arms and ammunition supplied to persons with whom he was not actually acquainted, or as to whose rights to possess arms he was not absolutely certain, to the Deputy Commissioner of the district or to the Tahsildar for delivery to the addressee. That some rule of the kind is necessary will, His Honour thinks, be admitted. The matter is one of very considerable importance.

No. 1712, dated Jullundur, the 3rd May 1909.

From—The Commissioner, Jullundur Division.

To—The Chief Secretary to the Government of the Punjab.

I have the honour to forward copy of letter No. 93, dated the 22nd April 1909, with enclosure from the Deputy Commissioner, Jullundur, for the information of Government.

2. The correspondence shows that it is possible for any one to purchase arms or ammunition without a license provided that he is prepared to give a wrong name, or to assert that he is exempted. Under the license for sale of arms there appears no restriction as to persons to whom goods are sold: the licensee is apparently not required to take any steps to satisfy himself as to the identity of the person to whom the goods are sold.

No. 93, dated the 22nd April 1909.

From—The Deputy Commissioner, Jullundur.

To—The Commissioner, Jullundur Division.

I have the honour to report the following facts for your information:—

2. On 5th March 1909 Pir Anwar-ul-Haq, Tahsildar, Jullundur, received an intimation from Messrs. Walter Locke and Company, Lahore, that they had executed his order and sent value-payable parcel to him the following ammunitions noted in the margin. As he had given no such order, he reported the matter to me and asked Walter Locke and Company to send the letter to him. This they did. The letter was a forgery. I stopped delivery of the ammunition.

| | | Rs. | a | p. |
|---|---|---|---|---|
| 20 450 | Express Rifle Cartridges at 20 per cent ... ... | 4 | 0 | 0 |
| 250 12 | Bore Cartridges Caps ... ... | 1 | 4 | 0 |
| 100 22 | Short Cartridges ... ... | 1 | 12 | 0 |
| | Packing and Registration fee ... ... | 0 | 6 | 0 |
| | Total ... | 7 | 6 | 0 |

3. Copies of the correspondence show that Walter Locke and Company are absolutely within their rights. I would specially invite your attention to that portion of their letter marked A in which they state that if a respectably dressed native walked into their shop, or wrote to them purporting to be a gentleman exempt under the Arms Act, that they would supply him with such arms and ammunition as he required, and are under no obligation to inform any one of having done so.

*Judicial and Legislative (Police), dated 11th October 1909.*

To my mind it appears most dangerous and it would possibly in the light of the above occurrence be desirable to bring the matter to the notice of Government. This matter came to light owing to the goods being sent value-payable parcel, but it is not inconceivable for a firm of less repute and standing than Walter Locke and Company, to sell in the way represented by that firm, any amount of arms and ammunition for cash, to any person whatsoever, provided he purports to be a person exempt under the Arms Act, whether he really is or not, and it would be quite impossible afterwards to trace the purchaser, or prove connivance by the vendor, and as far as I can see, there is nothing to prevent any number of natives dressing themselves respectably and calling themselves Honorary Magistrates or otherwise and getting as much ammunition as they like irrespective of the prohibitions of the provisions of the Arms Act.

---

Dated Lahore, the 24th March 1909.

From—MESSRS. WALTER LOCKE and Company.

To—The District Magistrate, Jullundur.

In reply to your No. 582 of the 23rd instant, we have the honor to state that we do use every possible precaution in supplying arms and ammunition to natives and that we are in the habit of verifying names by a reference to a current army or civil list as the case may be. At the same time we wish to point out to you that fraudulent purchase of ammunition would not be a difficult matter to a man who desires to accomplish it. We instance an educated and well-dressed native representing himself and using the name of an Honorary Magistrate, who under Section 4 of the first schedule of the rules is an exempted person from the Arms Act operations, purchasing ammunition personally or by letter. We do not say that this is ever done, but it could be accomplished, and under the circumstances we should like to know how such fraud may be guarded against.

In reference to paragraph 2 of your letter we beg to enclose for your perusal a copy of a letter No. 454 of 5th May 1908, from the Commissioner of Police, Calcutta, relating to the sale of ammunition of the prohibited bores. From this you will see that only ammunition of the ·303 and M. H. ·577-·450 bores require a special license by exempted persons to purchase and we are always careful to obtain this before we effect a sale.

With regard to intimating to you details of sales of ammunition we beg to enquire under what section of the rules we are obliged to do this? We furnish annual reports of sales of arms and ammunition to our District Magistrate and also keep police registers and sales books which are periodically examined by the authorities. We understand that this is all we are obliged to do in connection with the sales we effect.

Report on the Mysore Dasara Health Exhibition of 1908, received with the Sanitary Commissioner's letter No. 138, dated the 31st August 1909.

---

No. 3399-439—SAN. 65-09-2, DATED BANGALORE, 8TH OCTOBER 1909.

ORDER THEREON.—The report submitted by the Sanitary Commissioner, though late, is full and interesting, and Government are glad to note that the Exhibition was well attended and was much appreciated by the people.

2. The Exhibition was open from 7 to 10 A.M. and 4 to 8 P.M. daily, from the 1st to the 17th October 1908 and admission to it was free to all visitors. It is stated that no account of the number of visitors was maintained; but it would be interesting to know how many people availed themselves of the opportunity to view the exhibits and some arrangements may perhaps be made to keep an account of them in the ensuing Exhibition.

3. The number of exhibits increased from 1,874 in 1907 to 6,768 on the present occasion, the collections from the State being more numerous and better represented than those of last year. Government note with satisfaction the long list of exhibits detailed in para 7 of the report and the steps taken to explain the various exhibits to the visitors. The arrangements made for delivering magic lantern lectures and lectures on public health subjects and for distributing health leaflets commend themselves to Government as the best means of popularizing subjects relating to public health and arousing public interest in them.

4. It is reported in para 13 of the report that in getting up exhibitions in temporary sheds annually, there is a considerable waste of energy and the exhibits are liable to breakage and loss, and the Sanitary Commissioner suggests that some permanent and central building such as the Rangacharlu Memorial Hall be permanently fitted up to form a Health Museum and the exhibits permanently located there. The question is receiving the attention of Government.

5. No reference has been made in the report under review to the financial aspects of the Exhibition. The report has not also been provided with a list of contents. These omissions should be supplied in the next report, which should also contain at the end a separate list of awards given during the Exhibition.

6. The thanks of Government will be communicated to the principal Railway Administrations for the concessions shown to the exhibitors and to the several private exhibitors who were good enough to send their exhibits.

*Proceedings of the Government of His Highness the Maharaja of Mysore, Local Fund and Sanitary (Education), dated 24th October 1909.*

No. C. 16—Edn., dated Mysore, 24th October 1909.

Order.—Mr. H. J. Bhabha, M.A., F.M.U., F.B.U., Inspector-General of Education in Mysore, having been permitted to retire with effect from the 1st November 1909, the Government of His Highness the Maharaja of Mysore take this opportunity of placing on record their appreciation of the valuable services rendered by him in the Education Department of the State.

2. He entered the Department in November 1876 as Vice-Principal of the Central College, Bangalore, and was appointed Head Master of the Maharaja's College, Mysore, in June 1884. He became Secretary to Government in the Education Department in April 1890, and five years later Inspector-General of Education.

3. During the period of nearly twenty years that he has been in charge of these offices, education in all its branches has made very considerable advance. The number of Primary Schools for boys has risen from 1,143 to 1,776, for girls from 55 to 214; Secondary Schools for boys from 216 to 245, for girls from 17 to 54; Industrial, Technical and special schools from 1 to 24; and the total number of scholars in Public Institutions from 66,501 to 113,257. Among the measures which marked the term of his office as Head of the Education Department were the introduction of Manual Training and Kindergarten instruction into the Schools of the State; the introduction of Religious and Moral instruction in Schools; the improvement of Elementary education, which has latterly been made free throughout the State; and the increase of the minimum pay of Village School Masters to Rs. 10 per mensem.

4. In bidding Mr. Bhabha farewell the Government desire to acknowledge his loyal co-operation, zeal and untiring devotion to the interests of the Department under his charge.

K. S. CHANDRASEKHARA AIYAR,
*Secy. to Govt., Gen. & Rev. Depts.*

To—The Inspector-General of Education in Mysore.

READ THE FOLLOWING PAPERS:—

I. Note No. 32, dated the 14th April 1909, from the Secretary for Railways to the Government of Mysore:—

"I beg to submit for sanction of Government, budget estimates for the year 1909-10, with the following brief remarks.

RECEIPTS.

These are estimated at Rs. 10,39,000 from information obtained from the Madras and Southern Mahratta Railway Company, which is subject to revision by the Comptroller. The receipts for the year 1908-09, estimated at Rs. 8,87,000, have since been revised to Rs. 11,30,000. The increase of Rs. 2,43,000 is due to the reduction in the payment to the Company of 1/4th surplus profits for the Mysore-Harihar line to 1/20th for all the Mysore State lines with effect from 1st July 1908 according to the terms of the Supplemental Contract, and to the general improvement of traffic.

EXPENDITURE.

This is estimated at Rs. 11,83,300 against Rs. 10,52,300 for the year 1908-09; its distribution among the several heads is given below:—

*I. Open Lines.—Construction works Rs. 4,48,000.—(i) Mysore-Harihar line.*—A sum of Rs. 4,30,600 is provided as shown below:—

(1) Sanctioned or incomplete works of previous years Rs. 3,34,820, (2) New works Rs. 86,120 and (3) Reserve for unforeseen works Rs. 9,660. The Company's estimate aggregates Rs. 6,76,660, but from the detailed statement accompanying, it will be seen what provisions I have allowed to stand and what I have struck out. In fact, provision is restricted to works for which we have already agreed to find funds, and the rest omitted owing to financial pressure. For further remarks and detailed explanations please refer to the remarks column of the detailed statement. The grant for the year 1908-09 was only Rs. 2,71,900.

*Proportionate share of general stores balance debitable to the Mysore State Railway.*—The Agent in para 3 of his letter No. 416-11-431- W.—7994 of 30th March 1909, in forwarding the budget estimates, states that the question of division of the general stores balance is under reference, and no provision has therefore been made on that account during the year 1909-10. Further, the amount at present in deposit is sufficient to cover the balance as it stands.

(*ii*) *Birur-Shimoga line.*— Against a sum of Rs. 20,900 asked for, Rs. 13,400 only is provided for sanctioned or incomplete works of previous years. For the year 1908-09 the grant was Rs. 7,300.

(*iii*) *Mysore-Nanjangud line.*— A sum of Rs. 4,000 only has been provided for improvements to Nanjangud Town Station. This work was proposed to be undertaken during 1907-08 and 1908-09, and was accordingly budgetted for, but the Company postponed it to 1909-10.

(*iv*) *Kolar Gold Fields Railway.*— The Company's estimate aggregates Rs. 61,000. I have struck out all the provisions made, for want of funds, as will be seen from the remarks entered in detailed statement of works.

The laying in of additional pots to raise the standard of Permanent Way to 12 pots per 30 feet rail costing Rs. 53,300 was proposed during 1908-09 but disallowed, as it will never probably be necessary to run fast express trains on this railway. This work is again put forward by the Company, but in my opinion this work can safely be allowed to lie over for the present.

*II. Saloon carriages.*— A sum of Rs. 3,000 is provided to meet the usual charges of maintenance and minor repairs to the State Saloons.

*III. Direction and accounts.*— The charges under this head aggregate Rs. 7,300 against Rs. 8,000 for 1908-09. The decrease is due to certain reductions ordered by Government having been given effect to, as will be seen from the remarks entered in the detailed budget.

*IV. Reserve grant.*— A sum of Rs. 5,000 has been provided under this head to meet unforeseen contingencies.

*V. Interest.*— This item calls for no remarks.

2. The Company have also furnished us with a list of their demands or a triennial demand schedule for the period ending 1911-12. But I think it too early yet to consider the Capital requirements for 1910-11 and 1911-12.

3. A cpyo of this note together with copies of the budget estimates will be forwarded to the Comptroller."

II. Government Proceedings No. Fl. 703-43— Gl. Fin. 506-08-2, dated Bangalore, 28th July 1909, sanctioning the State budget estimates for 1909-10.

III. Railway Secretary's note No. 63, dated 9th August 1909, asking for an additional grant.

*Proceedings of the Government of His Highness the Maharaja of Mysore,*

No. 623—Ry. F. 29-09-10, dated Bangalore, 28th October 1909.

Order thereon.—The budget estimates as submitted to Government provided for a revenue of Rs. 10,39,000 exclusive of working expenses to be paid to the Madras and Southern Mahratta Railway Company, Limited, and an expenditure of Rs. 11,83,300. This latter figure has been reduced by Government to Rs. 10,20,000 or Rs. 7,20,000 for guaranteed interest and Rs. 3,00,000 to meet capital expenditure on the Mysore State lines, etc. Again on a further representation that the amount fixed for capital expenditure was quite insufficient, Government have been pleased to sanction the utilization of a sum of Rs. 1,28,000 out of Rs. 1,78,532-13-1 held in deposit by the Madras and Southern Mahratta Railway Company in excess of the actual requirements on account of the share of the general stores balance of the Mysore State Railway, as an additional budget allotment for the year 1909-10 on account of capital works on the Mysore State lines.

2. The Railway budget estimates for the year 1909-10 as now revised and sanctioned provide for an income of Rs. 10,39,000 as against Rs. 8,87,000 for the previous year and an expenditure of Rs. 11,48,000 against Rs. 10,52,300 for 1908-09.

3. A copy of the budget estimates is attached. The list of works which are proposed to be undertaken during the year and the allotments to be made for them, is now under revision by the Agent, Madras and Southern Mahratta Railway Company, Limited, and on receipt of same a copy will be supplied to the Comptroller.

*Proceedings of the Government of His Highness the Maharaja of Mysore, Geological, dated 5th October 1909.*

READ—

Report dated 21st September 1909, submitted by the Chief Inspector of Mines in Mysore, on a fatal accident which occurred in the Champion Reef Mine on the 15th of September 1909.

---

No. 963-5, DATED BANGALORE, 5TH OCTOBER 1909.

ORDER THEREON.—The accident took place in a small stope below the 7th level, Ribblesdale's Section. The stope had reached a depth of 26 feet below the 7th level and was some 20 feet in length from north to south, with a width of about 3 feet between the hanging and foot walls. Before the accident the ground was quite sound and the hanging wall was supported by timber props down to within 7 feet of the bottom and by filling of black rock along its northern side. At the time of the accident there were eighteen men in the stope, six of whom were timber coolies under a mestri working at the north end and twelve were hand jumper coolies under a mestri working towards the south end. Without any warning there was a severe concussion which was heard and felt on surface and which broke and displaced the two lower rows of props and shook down a large quantity of rock from the lower portion of the hanging wall of the stope. Some of the timbers in the 7th level were broken and the floor of the level thrown up, the tram rails being raised several feet. An Italian miner named Pasinetti Guiseppe, a hand jumper mestri named Valen and a timber mestri named Govindarajulu were the first to arrive at the scene of the accident and found it impossible to get down the stope from the 7th level owing to broken stuff. They then went down to the 8th level and cleared out the broken rock from the shoot pass which descends from the north end of the stope down to the 8th level and succeeded in climbing up the pass, a distance of about 70 feet, and extricating six men alive, all of whom were lowered down the pass with ropes. The action of these men in climbing up the pass to the shattered stope was a particularly difficult and hazardous feat to which the six men who were rescued probably owe their lives. Arrangements were properly made by the Superintendent, Mr. Cooke, and the Chief Mine Agent, Captain Treloar, to clear a way down the stope from the 7th level to where the other coolies were buried. This work was carried on without cessation for over 60 hours and was fortunately carried through without further mishap in spite of the dangerous nature of the ground and the difficulty of getting in supporting timbers owing to the confined space. Five bodies were recovered on the morning of the 16th and the remaining seven by the morning of the 17th.

2. The Chief Inspector of Mines is of opinion that the accident was due to the sudden fracture of a portion of the pillar of quartz which was being stoped and was not a fall of the hanging wall on account of insufficient support. Every precaution appears to have been taken to secure the hanging wall with timber props and by filling with waste rock, and these measures would have been amply sufficient under all ordinary circumstances.

3. The Chief Inspector of Mines has issued orders that no further stoping work shall be done on the pillar of quartz without his special permission and after a further inspection when the place has been sufficiently cleared up.

4. The Government concur with the finding of the Chief Inspector of Mines and direct that the report be recorded.
